TOWN WARRANT

The State of New Hampshire

March 13, 1984

Polls will be open from 7:00 a.m. to 7:00 p.m. at Wilkins School

Voting on Articles 1 and 2 will be at the polls.

Remaining articles will be considered at the meeting held at 9:00 a.m. March 17, 1984 at Middle School.

To the inhabitants of the Town of Amherst in the County of Hillsborough and State of New Hampshire, qualified to vote in Town affairs:

You are hereby notified to meet at the Wilkins School on Boston Post Road, Village on Tuesday, the 13th day of March, 1984 at 7:00 a.m. for the choice of Town Officers elected by official ballot and such action required to be inserted on said official ballot (Articles 1 and 2).

The polls will open on said date at 7:00 a.m. and will close not earlier than 7:00 p.m. in the evening.

You are hereby notified that the second session of the annual meeting of the Town of Amherst will be held at the Middle School on Cross Road, Amherst on Saturday, March 17, 1984 at 9:00 o'clock in the morning to act on those matters not to be voted on by official ballot (Article 3 thru

Article 1.

To choose all necessary Town officers for the ensuing terms.

Article 2.

To see if the Town will vote to make the following changes in the Zoning Ordinance and Zoning Map for the Town of Amherst.

AMENDMENT #1

Withdrawn by the Planning Board.

AMENDMENT #2

Amend the definition of a Planned Development (section 9) to read "A Planned Business or Commercial Development."

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #2 as proposed by the Planning Board for the Town of Amherst to make clear the difference between a Planned (business) Development and Planned Residential Development?

YES

NO

AMENDMENT #3

Delete the following from uses permitted by Special Exception in the Residential (RE) Zone (Section 5-4). Lines 2 thru 6 (religious purposes, private schools, professional offices, hospitals, clinics, nursing homes, funeral homes).

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #3 as proposed by the Planning Board for the Town of Amherst to eliminate some uses currently permitted by Special Exception in the Residential Zone?

YES

NO

AMENDMENT #4

1. Amend Section 4-9, Paragraph C-1 (in the Industrial Zone) to read..."The minimum lot area for any permitted use shall be one acre."

2. Amend paragraph C-2 so that the frontage requirement for all uses permitted in the Industrial Zone is 200 feet. (eliminating paragraph 2b)

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #4 as proposed by the Planning Board for the Town of Amherst to make lot size requirements for Limited Commercial uses consistent throughout the Zoning Ordinance?

YES

NO

AMENDMENT #5

Add to Section 6-2, Paragraph E..."They may require plans, details, specifications for new structures to have been prepared, or sealed, by a licensed architect or engineer."

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #5 as proposed by the Planning Board for the Town of Amherst to obtain reasonably detailed and accurate plans for the construction of new buildings?

YES

NO

AMENDMENT #6

Add new Section 3-12 to Article III. Farming

Intent. In keeping with the goals of the Master Plan, a Right to Farm Ordinance is hereby written to encourage and protect farms and farming in the Town of Amherst.

Proposal. In order to protect the existing farms in the Town of Amherst and to encourage others who might want to farm, it is recognized that 'the right to farm' is a natural right and is allowed to exist as a permitted use in the Town of Amherst subject to the restrictions and regulations of the Town of Amherst and State Health and Sanitary Codes for intensive fowl and livestock farms.

The right to farm as used in this Ordinance includes use of necessary equipment, farm machines, farm laborers, application of fertilizers, etc, for the purpose of producing agricultural products such as vegetables, grains, hay, fruit, trees, plants, etc. The right to farm shall also include the right to use land for grazing by animals and the raising of livestock and fowl, when conducted in accordance with generally accepted agricultural practices and may take place on holidays, sundays, weekdays, night and day.

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #6 as proposed by the Planning Board for the Town of Amherst to encourage and protect farming in Amherst?

YES

NO

AMENDMENT #7

Add new Paragraph J to Section 6-2..."J. Consistent with State Statutes, public utility structures proposed for the Town of Amherst shall obtain building permits and meet zoning requirements."

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #7 as proposed by the Planning Board for the Town of Amherst to obtain a reasonable measure of control, consistent with State Statutes, as to the location, height and setback of public utility structures when constructed in Amherst?

YES

NO

AMENDMENT #8

Amend the paragraphs on Densities and Bonuses in the PRD Ordinance as follows:

DENSITIES In the PRD, density shall be determined by the following method. Divide the net tract area by two (2), the minimum lot size in the Residential, Rural, and Commercial Zones, or by five (5), the minimum lot size in the Northern Rural Zone. Multiply the result by four (4) if soils are of slight limitation, or three (3) if more than 50% of the net tract area is of moderate limitation. The results shall be the number of bedrooms permitted in the entire development. If bonuses, as explained below, are granted, the total number of bedrooms shall not exceed twenty-five (25%) percent of the number of bedrooms calculated above. The number of bedrooms permitted in any PRD shall be determined by the Board to assure compliance with the purpose of a PRD and shall not exceed the limit determined above.

For the purposes of this Ordinance, a bedroom may mean any room other than a kitchen, bathroom, living, or small utility room. In the review of the floor plan or plans, the Board, when appropriate, may deem floor space shown on said plans to constitute the number of bedrooms which could be reasonably built in that space, as opposed to the number of bedrooms shown. The Board may designate a room not to be a bedroom if it is clear that its use as a bedroom is unlikely in view of the layout of the unit or overall character of the PRD. The number of said bedrooms that shall be permitted in any one of the units proposed shall be fixed by the Board before the approval of the Final Phase. The Board shall also approve the external architectural design of the PRD to ensure its compliance with the goals of this Ordinance as stated in the section on PURPOSE. The number of bedrooms permitted in the PRD shall be noted on the Final Plat.

BONUSES The Board shall review the proposed PRD and consider the extent to which it meets or addresses the objectives set forth in this Ordinance and the Master Plan and may, in its judgment, grant bonuses in the form of an increase in the number of permitted bedrooms. The Board shall consider phasing of construction over a minimum of three (3) years as a requirement for such consideration. In no case shall the total number of bedrooms of the PRD exceed twenty-five (25%) percent of the maximum number of bedrooms calculated above.

ADD to Open Space paragraph...Harvesting of trees in the open space is permitted if it is done according to good forestry practice and with the expressed permission of the Planning Board.

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #8 as proposed by the Planning Board for the Town of Amherst to eliminate reference to specific percentage of bonus bedrooms which might be granted by the Planning Board in reviewing/approving Planned Residential Developments?

YES

NO

AMENDMENT #9

To create an Aquifer Conservation District, as stated in the text below, identifiable as areas of blue shading or crosshatching appearing on state-wide mapping prepared by the U.S.Geological Survey entitled "Availability of Groundwater in the Lower Merrimack River Basin, Southern New Hampshire by John E. Cotton, 1977", and as may be amended from time to time.

New Section 4-13, Article IV. Aquifer Conservation District

PURPOSE: Pursuant to RSA 31:60 (674:16) and RSA 31:61A (674:21) and in order to help maintain the quality of living in the Town of Amherst as set forth in the Master Plan, the Town believes that an adequate water supply is indispensable to the health, welfare, and safety of its citizens. Such an adequate supply is also essential to the maintenance of the ecological balance of the natural environment of the Town, an environment which the Town wishes to protect. These water resources are subject to an ever-increasing demand for new and competing uses. Thus, the Town declares and determines that such water resources whether occurring above or below ground constitute a precious, finite, and invaluable public resource. These resources should be protected, conserved, and managed in the interest of present and future generations. The intent of this Ordinance is to provide for the protection of the water resources from contamination by polluting, hazardous, or toxic materials.

LOCATION: The Aquifer Conservation District is identified as those areas designated by blue shading or crosshatching which appear on state-wide mapping prepared by the U.S.Geological Survey entitled "Availability of Groundwater in the Lower Merrimack River Basin, Southern New Hampshire" by John E. Cotton, 1977, and as may be amended or superceded by the U.S.G.S. or by the Planning Board as provided herein from time to time. This map is on display in the Zoning Office of the Town of Amherst. The district shall include mapped primary and secondary recharge areas.

A. Permitted Uses. Any of the following uses, which may require a permit, that meet the purpose of the District outlined above and which comply with all of the following requirements and conditions.

1. Industrial or commercial uses, in the Industrial and Commercial zones respectively, which discharge no hazardous or toxic waste on site and which uses are non-polluting.

2. Residential uses.

3. Activities designed for conservation of soil, water, plants and wildlife.

4. Outdoor recreation activities except those which destroy the surfaces of hillsides, or other watershed areas.

5. Operation and maintenance of existing bodies of water, wells, dams or other conservation devices.

6. Forestry uses provided that the land is returned to its natural state in order to prevent loss of top soil, erosion, or alteration of the normal drainage patterns and flow. Agricultural uses where the land in question is planted with a cover crop when the use is terminated.

B. Prohibited Uses: The following uses are prohibited in this District:

1. Outdoor storage of road salt or other deicing chemicals and dumping of snow containing road salt or other deicing chemicals.
2. Solid waste disposal sites.
3. Septage disposal sites and lagoons.
4. Automotive repair shops, junkyards, automotive junkyards and automotive salvage operations, as well as any similar use which might potentially affect water quality.
5. On-site storage of hazardous waste, or toxic materials, except temporarily as necessary in the ordinary course of business. A permit is required for such temporary storage.

C. Special Conditions. The following conditions shall apply to all uses in this District.

1. Sanitary waste water discharge to septic and leaching systems shall conform to the regulations set forth in the Town of Amherst Water Pollution Control Regulations.

2. All liquid or solid waste other than normal septic effluent shall be temporarily stored on-site and disposed of in a manner determined by the Planning Board.

3. Monitoring wells shall be established for all industrial and commercial uses utilizing or storing hazardous or toxic materials. The number, construction, and location of these wells shall be determined by the Planning Board. These wells shall be checked for compliance with the Interim Primary Drinking Water Regulations and Secondary Drinking Water Regulations as provided for in the Safe Drinking Water Act of 1974. The checking of wells shall take place on a monthly basis and the results reported to the Board of Health.

4. Storage of petroleum and refined petroleum products shall be above ground in a manner approved by the Fire Department unless Planning Board permission is obtained for subsurface storage. It shall be the responsibility of every applicant for such permit to demonstrate to the satisfaction of the Planning Board that subsurface storage can be accomplished in a manner which will not adversely affect the aquifer. Subsurface storage of such materials is permitted only with permission of the Planning Board and with such conditions specified to prevent the pollution of the aquifer. Permits issued by the Board of Selectmen shall be for a period of not more than fifteen (15) years, renewable upon application.

5. Use of pesticides, herbicides, fertilizers, manure and other potentially dangerous leachables shall be controlled in a manner determined by the Board of Health and in compliance with RSA 149D, 149D:7, 222 and the NH Code of Administrative Rules. Storage of these materials shall not be outdoors.

6. When an industrial or commercial use changes on a site within this District to a use which involves the use, storage, or disposal of hazardous or toxic materials, a non-residential site review shall be required.

7. No more than 70% of a lot shall be rendered impervious.

8. Storm water drainage from aquifer sites shall be collected into catch or settling basins before leaving the site.

D. Incorrectly Designated Zones. When the actual boundary of the Aquifer Conservation District is disputed, the Planning Board, at the complainant's expense and authorization, may engage a professional geologist or hydrogeologist to determine the precise location of the Aquifer Conservation District boundaries in the properties affected. A report of his/her findings shall be submitted to the Planning Board and shall include but not be limited to the following:

1. A revised soils map of the area in question prepared by a soils scientist qualified in hydrologic studies along with a written report of his/her on-site field inspection and test boring data.

2. The Planning Board shall adjust the boundary of this District based on the evidence provided as set forth above. It shall reserve the right to withhold action on any plat pending the results of an on-site inspection by the Board or its appointed agent and shall act to approve or disapprove the plan within ninety (90) days of submission or such further time as deemed necessary, but not to exceed an additional ninety (90) days.

E. Administration. All existing industrial and commercial uses utilizing or storing hazardous or toxic materials which are located within the Aquifer Conservation District must be reviewed by the Planning Board within six (6) months of the enactment of this Ordinance and must be in compliance with the conditions of this Ordinance by January 1, 1986.

F. Non-Conforming Uses. Non-conforming uses which exist at the time of adoption of this Ordinance may continue unless that use is found by the Board of Selectmen in consultation with the Planning Board to be an imminent danger to the public health, safety, and welfare. In such cases, that use must be brought into conformance with this Ordinance in a timely fashion as determined by the Board of Selectmen or the Board of Health.

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #9 as proposed by the Planning Board for the Town of Amherst to create an Aquifer Conservation District in order to protect the quality of water in Amherst in the interest of present and future generations?

YES NO

AMENDMENT #10

Amend the Zoning Map for the area at the junction of Route 13 and Christian Hill Road to change the zoning from Limited Commercial to Rural. Said area containing all or portions of lots 72, 73, 74, 75, 76, 76-1, 69-4 on tax map 5 and as shown on posted maps.

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #10 as proposed by the Planning Board for the Town of Amherst to change the zoning of this area from Limited Commercial to Rural?

YES NO

AMENDMENT #11

Add definitions of the following words to the definitions Section IX of the Amherst Zoning Ordinance.

Hazardous or Toxic Material or Liquids - Materials or liquids that pose a threat, present or future, to the environment, whether in use, storage, or transit, including without exception hazardous waste identified and listed in accordance with Section 3001 of the Resource Conservation and Recovery Act of 1976, and as may be amended from time to time.

Primary Recharge Area - The area immediately overlying the stratified drift aquifer and adjacent areas of stratified drift which may not have sufficient thickness to be part of the aquifer. The boundary of the primary recharge area is the contact between stratified drift and adjacent till or bedrock.

Secondary Recharge Area - The land adjacent to primary recharge area from which groundwater moves down a gradient into the aquifer.

Aquifer - A geologic unit capable of yielding usable amounts of water.

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #11 as proposed by the Planning Board for the Town of Amherst to add definitions of hazardous or toxic materials or liquids, Primary Recharge Area, Secondary Recharge Area, and Aquifer to the Zoning Ordinance?

YES

NO

AMENDMENT #12

Amend the Zoning Ordinance (Section 4-5, Paragraph A-6, Northern Rural Zone) to delete the second sentence which currently requires that subdivisions of five (5) or more lots must be according to Planned Residential Development provisions.

BALLOT QUESTION:

Are you in favor of the adoption of Amendment #12 as proposed by the Planning Board for the Town of Amherst to allow conventional forms of development in the Northern Rural zone as is permitted in other zones of the Town?

YES

NO

AMENDMENT #13

Proposed by Petition

BALLOT QUESTION:

Are you in favor of adopting Amendment #13 as proposed by petition of voters of this Town to include in the Commercial Zone, lot 20, tax map 1, as shown on posted maps and in the area of the intersection of Route 101A and Route 122? The Planning Board recommends a NO vote.

YES

NO

AMENDMENT #14

Proposed by Petition

BALLOT QUESTION:

Are you in favor of adopting Amendment #14 as proposed by petition of voters of this Town to include in the Limited Commercial Zone, lot 20, tax map 1, as shown on posted maps and in the area of the intersection of Route 101A and Route 122? The Planning Board recommends a NO vote.

YES

NO

AMENDMENT #15

Proposed by Petition

BALLOT QUESTION:

Are you in favor of adopting Amendment #15 as proposed by petition of voters of this Town to include in the Commercial Zone, lots 110, 111, 112, tax map 2, as shown on posted maps and in the area of the intersection of Route 101A and Route 122? The Planning Board recommends a NO vote.

YES

NO

AMENDMENT #16
Proposed by Petition

BALLOT QUESTION:

Are you in favor of adopting Amendment #16 as proposed by petition of voters of this Town to include in the Limited Commercial Zone, lots 110, 111, 112, tax map 2, as shown on posted maps and in the area of the intersection of Route 101A and Route 122? The Planning Board recommends a NO vote.

YES NO

AMENDMENT #17
Proposed by Petition

BALLOT QUESTION:

Are you in favor of adopting Amendment #17 as proposed by petition of voters of this Town to see if the Town will vote to amend the Zoning Ordinance section titled Planned Residential Development (PRD) dated 11-2-82 by restricting said developments to pre-selected geographical areas of the Town, and which must be compatible in value and esthetically harmonious with those residences being impacted in the area or take action relative thereto? The Planning Board recommends a NO vote.

YES NO

Article 3.

To see if the Town will vote to raise and appropriate such monies as may be necessary to defray Town charges for the period July 1, 1984 to June 30, 1985.

Article 4.

To see if the Town will vote to give the Selectmen and Town Treasurer the authority to borrow money in anticipation of tax receipts.

Article 5. Tax Impact - Paid in full 1.53
Three years average .60 annually

To see if the Town will vote to raise and appropriate the sum of \$260,000 for reconstruction and development of the playing fields at Wilkins School and on school land adjacent to the Middle School. Of this sum \$25,000 is to come from the Bean Foundation, \$12,500 to be withdrawn from the Federal Grant approved in 1979 for this purpose and the balance to be raised by serial notes having a term of three years, or take action relative thereto.

Article 6. Tax Impact 0

To see if the Town will vote to authorize the withdrawal from the Federal Revenue Sharing Funds for offsets against budgeted appropriations for the following specific purposes and in the amounts indicated or take action relative hereon:

Police Vehicles	\$18,200
Computer Costs	18,000

Article 7.

Tax Impact 0

To see if the Town will vote to raise and appropriate the sum of \$7,000 to cover the Town's share of the cost of a study on septage management for the four towns comprising the Souhegan Regional Landfill District. The purpose of the study is to determine the best method available to the towns to comply with the mandate of the State that each jurisdiction must provide a suitable method of disposal of the effluent generated within its borders. And further to authorize the withdrawal of the amount required for this purpose from Federal Revenue Sharing Funds or take action relative thereto.

Article 8.

Tax Impact 0

To see if the Town will vote to raise and appropriate the sum of \$3,000 for the purpose of seeking professional help from the New Hampshire Municipal Association to review the new Personnel Policy and wage schedules adopted by the Selectmen and to authorize the withdrawal of the amount required for this purpose from Federal Revenue Sharing Funds, or take action relative thereto.

Article 9.

Tax Impact 0

To see if the Town will vote to raise and appropriate the sum of \$16,000 to cover the study, revision and completion of the Master Plan for the Town, as required by the newly adopted state law and authorize the withdrawal of the amount required for this purpose from Federal Revenue Sharing Funds or take action relative thereto.

Article 10.

Tax Impact 0

To see if the Town will vote to raise and appropriate the sum not to exceed \$6,000 to complete the Town's aquifer study by covering the cost of a deep rock water resource inventory and to effectuate the aquifer protection regulations of the Town, and authorize the withdrawal of the amount required for this purpose from Federal Revenue Sharing Funds or take action relative thereto.

Article 11.

Tax Impact 1.38

To see if the Town will vote to establish a capital reserve fund for the construction of a 12,000 square foot library or renovation of the existing facility and raise and appropriate the sum of \$200,000 as an initial payment to this fund or take action relative thereto.

Article 12.

Tax Impact 0

To see whether the Town will ratify and approve the action of the Board of Selectmen on conditionally entering into an intermunicipal agreement for the provisions of communication along with other towns set forth in said agreement for the purposes described therein including the delivery of communications and dispatch services to the member towns or take action relative thereto.

Article 13.

Tax Impact 0

To see if the Town will vote to adopt the provisions of RSA 674:5 and authorize the Planning Board to prepare and amend from time to time, a recommended program of municipal capital improvement projects, the purpose shall be to aid the Town in consideration of the annual budget or take action relative thereto.

Article 14.

Tax Impact 0

To see if the Town will vote to accept the provisions of RSA 202A:11b allowing the Library to retain monies earned by income-generating equipment for library purposes or take action relative thereto.

Article 15.

Tax Impact 0

To see if the Town will vote to abandon and discontinue, pursuant to RSA 231:43 the Town road leading to the Old Walker Farm (lot 4-65).

Article 16. BY PETITION

Tax Impact .14

To see if the Town will vote to raise and appropriate the sum of \$20,000 to be administered by the Conservation Commission with the concurrence of the Board of Selectmen for the purpose of acquiring land or water rights with particular attention to major aquifers and aquifer recharge areas in accordance with NHRSA 36A-5.

Article 17. BY PETITION

Tax Impact - to be discussed at
Town Meeting

To see if the town of Amherst will vote to direct the Board of Selectmen to establish a full time position of Administrative Assistant to act as a representative of the Board and perform duties at the direction of the Board, and provide for the funding of such a position.

Article 18. BY PETITION

Tax Impact 0

To see if the town of Amherst shall call upon the Governor and Executive Council, its State Representative(s) and State Senator to promptly convene a Special Session of the Legislature for the sole purpose of preventing the imposition of huge cost increases in electric rates resulting from the Seabrook Nuclear Power Plant on the citizens, businesses, schools and agencies in the town of Amherst, and to direct the Selectmen to promptly notify our above listed elected officials of the Town's desire.

Article 19. BY PETITION

Tax Impact 0

To see if the Town will vote to change the names of the two streets in the development known as Stonehenge (now Village Woods) from Bluestone Drive and Stonehenge Drive to Village Woods Drive and Village Common Court.

Given under our hands and seal
this 27th day of February, 1984.

SELECTMEN'S REPORT

The Selectmen, in making this report on the status of the Town of Amherst, are pleased to again be able to tell you that the Town is in an excellent financial condition. Although you undoubtedly noticed a significant increase in that portion of the taxes attributed to the Town, you must also be aware that this resulted from action of the legislature in dispensing state funds to towns and cities. While we engaged in some minor efforts to correct this imbalance, it soon became apparent that the Department of Revenue, lacking clear direction from the legislature, developed their own means of apportionment causing the town's rate to increase dramatically. However, since the level of state support to the town is now firmly established, it will give us closer control of our expenses in the future by removing surprises from the rate-setting process.

Happily, through a very active investment program, handled with excellent results by our treasurer, an unexpected increase in auto registration fees; some modest savings in the budget and increased tax interest revenues, we were able to again finish our fiscal year with a healthy surplus. Four hundred thousand dollars of this was used to reduce the tax rate for 1983. We will complete fiscal year 1984 debt-free with the final payment on the Police/Rescue facility. We have within the warrant for your consideration, several items which by your vote, may change this position.

The town budget shows an increase of 7% over last year, exclusive of warrant articles. A modest increase to our staff is included as well as increases from the landfill, welfare and the inclusion as line items of articles which had previously been approved by Town Meeting.

Reappraisal, voted in in the March Town Meeting, started in July with a review of residential properties. The process completed previously in 1974 should take eighteen months to complete and will bring the Town up to 100% valuation.

The Town and School Departments now share the use of a computer, which after some initial installation problems, is working well. Shortly, we will no longer require the use of two outside service organizations.

Town employees now have a dental plan as part of the benefit package. The Personnel Plan is continually being updated and the Selectmen are proposing a professional review and with annual updates of this plan by a municipal personnel expert.

This has been the year of the Water Problem. After a special Town Meeting, it was voted to extend the pipes of the

Water District out to the Town Barn and two homes affected by salt in their drinking water. The system was given a final O.K. this past fall.

After forty percent of the drinking water in Milford was declared contaminated, Milford purchased the Curtis land in Amherst for a municipal well. This action took Amherst by surprise and created quite a brouhaha. After some public hearings, it was decided to appeal to the P.U.C. for a decision on where the responsibility would lie if it was proven that Amherst residents had been negatively affected by the Milford drawdown on this well. The results of the P.U.C. hearing were positive for Amherst.

Residents of Route 101A area expressed great concern about a proposal to place an Exxon Service Center on the western end of that highway. This became a general concern about the aquifers in the area, and in the Town. The Planning Board will present to the voters an aquifer protection ordinance in March.

Water testing is going on at Baboosic Lake through a system of volunteers. The Souhegan Regional Landfill will be monitored by the state, the results being known in the spring.

A water system is finally in the works for the Bon Terrain Industrial Park. This system would serve business in the Park and down the road, residents in the area. This should encourage development in the area by lowering fire insurance rates, thereby broadening the tax base.

The Nashua Regional Planning Association is an increasing asset to the Town as growth causes us to look to solutions that are regional, not solely local. Planning is in progress now toward a long-range solution to our solid waste and sewage problems. Voters will be apprised of this planning at Town Meeting. Other regional issues are transportation planning, the aquifer delineation study, traffic problems on Route 101A, water testing at Baboosic Lake and the Town Master Plan. Regional solutions tend to be most practical and most cost effective.

We would like to extend our gratitude and appreciation to the hard work and devotion displayed by our Town employees in all departments. We are very proud of the job that they do. In addition to Town paid personnel, we would like to thank those volunteers in the Fire Department and Rescue Squad who give long hours in the service of the Town. Finally, thank you to those volunteers on committees and commissions without whom the Town could not function. We hope that they will continue in their enthusiasm to serve the Town. Amherst is most fortunate to have so many caring citizens.

ELIZABETH D. LOWN, CHAIRMAN
FRANCIS N. PERRY
JOHN I. SNOW

HENRY MANOOGIAN
ALICE E. ARNOLD

WELFARE REPORT

The demands on the Welfare budget this year have been modest with no large court ordered expenses. During 1983 we served thirteen needy families with help for food, rent and utilities. Most of these people have found adequate employment, thus making further Town help unnecessary. We have also had bills from three other towns for former Amherst people who were still our responsibility.

We were, however, not so fortunate with the Old Age Assistance portion of our budget and today have three active nursing home cases which result in a fairly large monthly charge. We feel that the Town has been very fortunate to have had such a small need for help from our people. Indeed, we are concerned that those who truly require help are failing to let us know when we can be of assistance.

We have been fortunate also to receive aid from the Pantry Shelf in Milford and from the service organizations in Amherst. One of the highest points of each year is the Christmas and Thanksgiving baskets so generously prepared by the churches and by the Junior Womens' Club with the help of the Lions. The Town is most grateful to so many willing volunteers.

ALICE E. ARNOLD
HENRY MANOOGIAN

HISTORIC DISTRICT COMMISSION

The Historic District Commission is charged with the responsibility of reviewing and approving all applications for building permits within the historic district. During 1983, the Commission reviewed 15 applications. The applications were for renovations or additions to existing structures.

The Commission held numerous meetings in connection with its approval of applications. The Commission is interested in the development within the village district of the Town and is in the process of establishing a collection of materials on the historic preservation of buildings to be used by townspeople.

AMHERST CONSERVATION COMMISSION

Your conservation commission continued active in its concern for the town's land and water resources and in its maintenance of the Joe English Conservation Area.

Ann Kirkwood chaired the Baboosic Lake Study Committee, which tested the lake's waters in cooperation with the state's Water Supply & Pollution Control Board and the Nashua Regional Planning Commission. A permanent committee of lake residents is being formed to monitor the lake's quality. Under the experienced leadership of Elisabeth Barrett, commission members conducted several dredge-&-fill inspections and anticipate being called out on more this coming year as construction increases.

To improve the stand of pine on the Sherburne land along the Souhegan, the commission again contracted with Howard Parkhurst to do the work and again as a side benefit realized about \$500 from the sale of the timber. With farm land continually being lost to development, the commission sought to keep a former hay field on the Souhegan from growing up to brush. The plan to lease it to the turf farm was, however, so vigorously opposed by the abutting residents of Fairway Drive that the turf farm lost interest. Those residents have promised to come up with plans to keep the land clear, and the commission awaits their proposals with great interest.

At Joe English, under the leadership of Chuck Bacon, trail blazes were repainted and trails cleared, the latter a never-ending chore. An Eagle Scout project of clearing the Harding Highland Trail and replacing its bridges nears completion, as does another Eagle project of fencing and providing identification markers in the wild flower garden. Ann Kirkwood made additional plantings there last summer. Cub Scouts under the direction of Howard Parkhurst planted black walnut seedlings at the foot of the beaver pond - to which, by the way, beaver have evidently returned after an absence of many years. A treated post was added to Crocker Bridge to replace the original supporting tree that had died. Bob Breck - surveyor and retired county forester - located the corners of the Harding Memorial Forest with the help of Chuck Bacon.

Thornton Stearns masterminded the construction of a bridge at the Baboosic Lake overpass to give access to the western end of the B&M railroad bed. Residents wishing to hike there may leave their cars in the unpaved part of the police/rescue parking lot. The commission sponsored Heather Kirkwood, Rebecca Leonard, and Deborah Wood at the annual camp of the Society for the Protection of New Hampshire Forests, at which the girls learned conservation attitudes and practices.

For personal reasons Betsey Gillespie and George Doran resigned as members, and the commission feels the loss of their input. Alternates Ann Kirkwood and Carol Francis were appointed by the selectmen to complete the terms. Bill Overholt continues as an alternate.

RECREATION COMMISSION REPORT

In 1983 an active and concerned Recreation Commission was very busy addressing a number of issues including further development of recreation programs and activities which it sponsors and long range planning to meet ongoing and future needs of recreation in the community.

The Recreation Commission adheres to the following basic philosophy for youth programs it sponsors. Such activities help to foster the development of youth through the teaching of sportsmanship, fair competition, fundamental skills, and commitment. It is the intent of the Commission that all participants in such programs, whether players, coaches, or parents, help in the success of our activities by understanding and adhering to this philosophy.

During the year 1290 boys and girls participated in ARC youth sports programs; track 91, baseball 279, softball 156, soccer 492, and basketball 272. Soccer had an increase of 101 participants over last year. An increase of 9% in youth sports participation is anticipated for 1984.

Baboosic Lake Beach was a busy place during the summer heat wave. Although the sale of season memberships was down, a 19% increase in daily guest registrations found the beach to be used as much as ever. The decline in season memberships was reflected in fewer swim lessons and less participation in the traditional Arts & Crafts program. Plans are being made accordingly to revamp both programs in 1984. Fifty-five boys and girls were active in the Baboosic Lake swim team program during the summer.

Thanks to the hard work of many volunteers, an expanded ice cream concession proved to be a popular service for beach goers throughout the summer. New playground equipment

made possible with donations by the Amherst Mens Club and Newcomers Club was thoroughly enjoyed by youngsters of all ages.

During the year the Commission supported the efforts of Rita Harden to develop a Childrens Theatre in Amherst. The result was three highly successful workshops and two full scale theatrical productions. By means of capital reserve funds generated in annual budgets, all five town tennis courts were resurfaced last spring.

Adult sports in mens basketball and volleyball and womens volleyball once again developed a large following throughout the year. A variety of winter and fall Adult Enrichment courses drew many back into the classroom for fun and learning.

The fourth annual ARC Ski & Skate Sale continued to be an invaluable service to the community as well as an opportunity for the Commission to raise funds to help defray the cost of special recreation projects and events.

Outdoor facilities for town recreation have long been a concern of your Recreation Commission. With the ARC, schools and civic organizations requesting more and more use of existing fields, there has been a clear demand for additional outdoor play and recreation areas. Upper Wilkins Field facilities used for soccer, football, baseball, and softball are totally inadequate because of the effect of water and drainage problems in the area. At the same time more requests each year are made by independent baseball, soccer and football organizations, local adult groups and businesses, and the Recreation Commission itself for use of existing outdoor facilities for programs and activities.

In July the Recreation Commission received a grant of \$10,000 from the Bean Foundation to have an engineering study done of the upper and lower Wilkins Field area for the development of recreation activity fields. The Foundation offered additional financial support of up to \$25,000 to complete any project planned following the study. Plans are being finalized for facilities in the Wilkins School area, on school owned land off Cross Road near the Middle School, or on a combination of both sites. The ARC looks to this project as a top priority item in the months to come.

During the year there have been over 100 head coaches of youth sports teams sponsored by the Recreation Commission. Add to the total the number of assistant coaches, youth sports Advisory Committee members, referees, Adult Enrichment faculty, Baboosic Lake staff and volunteers, school administration and custodial personnel, and Highway Department crews, it becomes clear that a tremendous number of people spend a

great deal of time making Amherst recreation possible.

To one and all our sincerest thanks for all you did in 1983 and our hopes for your continued support in the year to come. The Recreation Commission will continue at all times to abide by the basic premise that any and all who wish to become involved in recreation activities will be assured the opportunity to participate on an equitable basis regardless of individual abilities.

1983 July 4th REPORT

Theme: Amherst, My Home Town!

Winning Floats: Best Overall - Grella Family
Most Original - Mackey Family
Most Colorful - Junior Womens Club
Chairman's Choice - Newcomers

Float Judge: Bob Philbrick

Speaker of the Day: Ellen Vars

Citizen of the Year: Marshall Strickland, Fire Chief

Special Award: Plaque listing all previous Citizens of the Year to be kept in Town Hall. Presented to Selectwoman Elizabeth Lown by Amherst Mens Club.

Sign Carriers: Amy Blessing, Susie Whittaker, Ginny Cowenhoven, Barb Cassidy, Christine Disco.

Child Speakers: Sarah Weisman, Jean Ong, Ann Easton, David Warne, Scott Miller, Mark Welborn.

New for 1983: Fire-Rescue Roof Rescue Demo at Old Post Office, BMX Free Style Show at Brick School.

Weekend Events: Sunday, July 3rd - 6th Annual Softball Tourney at Middle School sponsored by Amherst Mens Club. Players: Fire, Rescue, Lions and Recreation Commission - Winner: Recreation.
Monday, July 4th: Booths on the Green, Lioness Bike & Carriage judging, Wigwam and Chapel open, Parade, Ceremonies, Rescue-Fire Demo, BMX Demo, Baboosic Concert, Picnic, Games, Races.

Weather: Oppressively hot and humid 95-100°!

Thanks to: Amherst Highway Department and Richard Crocker, Amherst Rescue Squad, also Police and Fire Departments, Tom Grella and David Hall and my Committee: Peter Bergin, Louise Ainsworth, Lyn Riccitelli, Dorothy Sullivan, Ginger Cowenhoven and aides Liz Morgan, Dolores Green, Justina Staley, George and Maura Scollin, Diana and Given Owen, John and Regina Welch, Ken Miller, Sue Pelley, Fran Camello, Joann Osborn, Bob Connolly, Terry Shields, Emcees Francis Perry and Jim Pasqualoni.

ANN CONNELL BERGIN, CHAIRWOMAN

MEMORIAL DAY 1983

Amherst observed Memorial Day on Monday, May 30, 1983 and for the second year in a row, it rained, though the clouds let up a little as the parade stepped off.

Present were Town Officials, Scouts, D.A.R., and local color guard. Providing music were the Amherst Middle School Band and the Milford Area High School Band.

Plants were sold on Pierce Common by the Amherst Garden Club and light refreshments were sold there also by S.A.G.E.

PETER F. BERGIN, CHAIRMAN

AMHERST RESCUE SQUAD

In 1983 the Rescue Squad responded to 428 calls for Medical Assistance, including 60 calls to Mont Vernon and 31 Mutual Aid calls to surrounding towns, while receiving Mutual Aid three times from those towns.

Overall, the year was a good one for the Squad. With a slight increase in the number of calls over 1982, the operating budget for the service has been increased only \$450.00.

The Squad now has three of its members that are EMT-I (Intermediate) trained. This will enable them to start intravenous fluids in the field under set medical protocols with the hospitals. We still have twenty members that are trained in MAST and EOA advanced life-support techniques.

The Squad received its new ambulance in September 1983, the purchase of which had been approved at last year's Town Meeting. To date, we are very pleased with its performance. We thank the townspeople again for their continued support.

This year we are asking for a \$5,000 increase in the vehicle capital reserve fund to ensure adequate funds for vehicle replacement in the future.

The Squad has had a change in leadership. Gus Bischoff resigned as Chief of the Rescue Squad, effective December 7, 1983 after serving as Chief for seven years. Richard Grumet was selected by the Squad and Selectmen to take over as Chief effective that date.

The Squad has grown and developed into one of the finest volunteer Ambulance Services in the State under his leadership. We will all miss him and thank him for his outstanding contribution to the Squad and the Town of Amherst.

While Squad membership has remained in the mid 40's throughout the year, we continue to seek new members who are available for duty between 6:00 A.M. and 6:00 P.M., our day shift.

Squad members wish to thank all the residents of Amherst for their continued support. Anyone wishing to see our quarters or equipment, or learn more about the Squad should feel free to drop by the building or contact any Squad member.

GUSTAV BISCHOFF, CHIEF - RICHARD GRUMET, CHIEF (12/7/83)
RICHARD GRUMET, DEPUTY CHIEF
GARY COWENHOVEN, CAPTAIN, AMBULANCE
THOMAS DUNCAN, CAPTAIN, RESCUE
PEG JONES, MARCIA HOUCK, DON STUBBS - LIEUTENANTS, AMBULANCE
RALPH ANDERSON, FRED DAVIS - LIEUTENANTS, RESCUE
MARGE BYAM, SECRETARY

ST. JOSEPH COMMUNITY SERVICES, INC.

Once again, SJCS has worked hard to control costs and increase participant donations. Due to these factors, we have been able to hold our request to \$50 per person for fiscal year 1985.

The purpose of our program is to provide nutritionally sound noon meals as well as social support services to the elderly and elderly homebound of Hillsborough County. The funds contributed by towns and cities allow many seniors to maintain their independence and lead happier lives at home.

ELAINE T. LYONS, EXECUTIVE DIRECTOR

PLANNING BOARD

The year 1983 was a year of transition. As the economy slowly recovered from the recession, the housing industry showed signs of possibly returning to the growth problems of the 1970's which so enormously increased our population. While this growth rate has not yet materialized -- continued high interest rates are still a factor -- we must recognize that southern New Hampshire has the lowest unemployment rate and fastest growth of its industrial base of almost any area in the United States. This continued expansion of jobs necessarily means more people requiring more houses. The Planning Board is faced with providing for growth in a planned and controlled manner.

This year we have labored with the new (approved in late 1982) concept of the Planned Residential Development (PRD). Our efforts to date have achieved mixed results. There is one condominium subdivision approved for the area between Amherst Hills and the village. One partially approved, moderate priced condominium is proposed adjacent to the Ponemah Bog. A third, on Corduroy Road, is still in the early planning stages, where the concepts are being examined to achieve a balance between the need for moderate cost housing and the desire to incur no substantial adverse impact on the neighborhood. The extensive studies that these PRDs have required has led the Board to conclude that we should (a) lower the permitted densities in future PRDs, and (b) provide greater freedom to the Planning Board in granting density bonuses, which are designed to encourage creative development consistent with the objectives of the Master Plan. We will be presenting to the 1984 Town Meeting a proposed amendment to the PRD Ordinance that would bring about these changes.

A second major development facing the Planning Board has been the complete recodification, with some major substantive changes, of NH law relating to the powers and responsibilities of Planning Boards. The legislature has decreed that if we wish to control growth, we must have a growth control ordinance approved by Town Meeting. This ordinance must be based on a Master Plan (prepared in a detailed manner specified in the legislation) and a Capital Improvement Program authorized by Town Meeting, and prepared by the Planning Board. Accordingly, we will be presenting to the 1984 Town Meeting a warrant article directing the Planning Board to prepare a Capital Improvement Plan. We are also presenting a warrant article in the amount of \$16,000 to cover the cost of necessary assistance by the Nashua Regional Planning Commission in expanding our Master Plan as required by the legislature, in order to manage future growth in the Town. We anticipate broad community involvement, possibly in the form of a new Sounding Board or Town-wide survey. An appropriate growth control ordinance could come from this effort.

A third major effort of the Planning Board has been an extensive study of ground water supplies in the Town. As growth of Amherst, including the tax-base-broadening industrial area, continues, our critical ground water supply is increasingly threatened by possible pollution. We will be presenting two warrant articles resulting from this study. One will create an Aquifer Protection District which will limit and control, to the maximum extent permitted by NH law, the types and intensity of uses that will be permitted in areas overlying or feeding our water bearing soils. The second will request \$6,000 to finance a deep rock aquifer study to locate water bearing areas in deep rock formations. This will support the gravel aquifer study now underway by the U.S. Geologic Survey and will give us a complete picture of all the water bearing areas of Town that must be protected against future contamination.

REPORT OF ZONING ADMINISTRATION

How many permits were issued for new residential construction in 1983? Fifty (50) (59) units of housing). How many total building permits? Three hundred and fifty-two (352). These figures represent increases of 200% and 45% above 1982. How many permits will be issued in 1984? I estimate one hundred (100) units of housing and four hundred (400) total permits.

These figures have made necessary a request that funds be provided in the 1984-85 fiscal year for the employment of a full-time Building Inspector. Currently the Town employs only part-time help.

Comparison of the figures provided below with those for the previous two years clearly indicate a strong trend toward accelerated construction activity. If the Town is to maintain reasonable standards of quality construction and be in accord with its laws, funds must be available for the purpose.

Permits applied for: 353

Permits issued in 1983 for:	Permits	Value
New residences (59 dwelling units)	50	6,534,000.
New Industrial/Commercial	9	1,624,000.
Additions - alterations/Residential	211	861,645.
Commercial/Industrial	33	966,100.
Public Buildings	1	10,000.
Signs	25	24,100.
Earth Removal	2	-
Oil Burners	21	11,500.
Totals	352	10,031,345.
Building Inspections	1815	
Meetings	63	
Violations	89	
Complaints	149	
Totals	2116	

RUSSELL V. ABBATE, ZONING ADMINISTRATOR

ZONING BOARD OF ADJUSTMENT

We are a five member elected Board that performs the function of granting relief from hardships created by the placement of zoning as it recognizes that situations exist in which the strict application of the zoning ordinances would be unreasonable for a property owner.

This Board has a great responsibility to the citizens as it must protect the integrity of the ordinances while granting those exceptions allowed by law. Many of the lawsuits facing the Town are the result of ZBA decisions requiring your tax dollars to defend in court.

The ZBA held eleven public hearings comprising 17 variances, 7 special exceptions, 4 rehearings (denials upheld), 2 request for rehearings denied and 1 request withdrawn. Below is a summary of our year's activity:

<u>Variances</u>	<u>Approved</u>	<u>Denied</u>
Setback relief	7	
Limited commercial use in residential zone		1
Additional sign		3
Additional square footage for sign		1
Expand definition of professional office		1
Relief from PRD density formula		1
Change in use		2
Relief from time restriction	1	

<u>Special Exceptions</u>	<u>Approved</u>	<u>Denied</u>
Road and driveway across watershed and wetland		1
Water lines in the wetland	1

TREE COMMITTEE

In 1983 the Tree Committee continued to concentrate its efforts in the area of maintenance. We contracted for several large trees and stumps to be removed. Also pruning on the different commons through town. The crab apple trees on Carriage Lane shall be thinned and shaped for health and beauty. This spring we are looking forward to fertilizing and planting to keep our Town green.

ROAD COMMISSION REPORT - 1983

The Road Commission holds their bi-monthly meetings on the third Thursday of every other month beginning in February. The purpose of the Commission is to discuss the Highway Department budget, operations of the department and make road inspections.

We wish to give you an update of our bridge replacement and upgrading program of the Amherst Highway Department. The bridge at the junction of Corduroy Road and Route 122 will be put out to bid after January 1, 1984 for construction in 1984. At the March 1983 town meeting an article was passed to withdraw our share of \$35,000 from the Bridge Capital Reserve Fund. The balance of the monies will be paid by the Federal Government - 80% and the State - 10%.

The second bridge which we had on our replacement program is the Merrimack Road bridge. At the 1983 town meeting we voted to authorize the Selectmen to enter into a contract with the State for the replacement of this bridge as well as raise and appropriate the sum of \$43,000 to be withdrawn from our Bridge Capital Reserve Fund, which is 15% of the estimated cost. This project is presently

in the early stages of design and is scheduled for construction in fiscal 1987.

During 1983 we upgraded two bridges - Camp Road and Route 101 had 293 feet of guard rail replaced and the cement bridge on the Horace Greeley Road had 160 feet of railing replaced. We replaced the bridge at the junction of Thornton Ferry Road II and Spring Road with a multi-pipe. The funds for this replacement and upgrading came from our Highway Block Grant.

Under our scheduled replacement of motor vehicles and equipment, which is provided for through the Capital Reserve Motor Vehicle and Equipment Funds, we replaced two of our one ton trucks, a 1968 military type vehicle and a 1979 one ton dump. As in the past, these new vehicles were equipped with new plows and plow frames. Because it is no longer feasible for private contractors to own sanders, it was necessary for us to purchase two sanders, inasmuch as we could not rent this equipment.

HIGHWAY BLOCK GRANT

The following is a brief outline of our proposed work program for 1984-85:

Georgetown Drive - we will reset and rebuild a catch basin and culvert and continue to the shimming of the road. We are going to use funds to reoil approximately 11.6 miles of road. We are going to shim a part of Christian Hill Road. We are going to pave a hill on Dodge Road just beyond the town barn. On Merrimack Road we plan to replace a double culvert. We plan to spot gravel various roads with approximately 2500 yards of bank run crush gravel. On Ponemah Hill Road a stone culvert will be replaced with two 64" x 42" x 40' pipe. Corduroy Road will be hot topped with a 1" finish course. Approximately 4600 feet of streets in the Village will be shimmed and paved with 1" of hot top. This should include the square across from Moultons and approximately 2300 feet of Boston Post Road north to the area of the Wilkins School, Foundry Street and Davis Lane. We are going to apply cold mix to approximately 1900 feet of gravel roads where dust has been a problem and where in the past we have used waste oil.

In conjunction with the above projects, the Road Improvement Program will include shimming and paving with a 1" finish course 2300 feet of Boston Post Road and Merrimack Road.

The Road Commission and the Road Agent anticipate the funds in the Highway Block Grant will continue to be given to the town and with this in mind we have drawn up a five year program to accomplish the road improvement without a large increase in the Highway Department budget.

MERIC ARNOLD
EVERETT LEACH
ELLIOT LYON

REPORT OF THE HIGHWAY DEPARTMENT

The following is a brief summary of the Department's activities during 1983:

Winter Maintenance - The work performed by the Highway Department from mid-November to mid-March is charged to this category. This winter was an average winter with 19 storms, during which we handle the removal of ice and snow from the roads, school yards, fire stations, library and sidewalks. We have continued to cut down on the use of rock salt on our roads during the winter months and call your attention to the signs which we have posted "Caution Limited Salt Use". We are making an effort to make the public aware of this cutback and to inform them that their speed will have to be decreased to safely travel on the roads. Unfortunately, it is necessary for us to apply an increased amount of sand to the roads which requires more clean up time in the Spring and consequently does not give us a savings. It was necessary to request an additional expenditure under this category to purchase two additional sanders inasmuch as we were unable to rent them from private contractors as we had done in the past.

The winter maintenance account also covers the cutting of trees and chipping brush during the winter months, sign replacement, picking up trash along the side of the road when possible and cleaning out catch basins.

Summer Maintenance - Our work schedule from mid-March to December 1st is covered under this account. This encompasses the grading, York raking and spot gravelling of our 34 gravel roads. We also maintain and replace culverts, install catch basins, cut banks and ditches, maintain shoulders along the black top roads, machine and hand cut brush and trees and set posts and signs on all roads. In 1983 we spot gravelled Smith Road, Nichols Road, parts of Old Milford Road, County Road, Pond Parish Road, part of Old Lyndeborough Road, Brook Road, Upham Road, School House Road and shoulders on Boston Post Road. We installed a catch basin on Mack Hill Road, two on Border Street and one on Boston Post Road, south. We installed two culverts on Mack Hill Road, one on Old Milford Road, one on Border Street and one on Boston Post Road, south.

Oiling - The oiling program covers the cost of patching and service treatment of our black road system. The following roads were reoiled: Airline Drive, Boston Post Road North and Mont Vernon Road, Douglas Drive, Hickory Drive, Eastern Avenue, Juniper Drive, New Boston Road, North Street, Old Milford Road, Old Mont Vernon Road, River Road, Winding Hollow Road, Miles Road, Meadow Lane, North Meadow Road, Brook Road, Pine Road, Rocky Hill Road, Northfield Road, Truell Road, Roberts Road, Old Nashua Road, Steeple Lane, Pine Acres Road, Horace Greeley Road, Old Manchester Road, Courthouse Road, Stearns Road, Willow Lane, Brimstone Hill Road, Old Lyndeborough Road, Blueberry Hill Road.

Town Road Aid - This program has now been discontinued and all monies for highway reconstruction have been combined into a Highway Block Grant.

Gas Subsidy - This is now part of the Highway Block Grant which is a combination of TRA and Gas Subsidy Program. It is financed 100% by the State. Under the Gas Subsidy Program we replaced a bridge on Thornton Ferry Road II with a three barrel culvert. We replaced the bridge rails - 293 feet of rails at Camp Road and Route 101; 160 feet of bridge rail at the cement bridge on Horace Greeley Road and we put down some gravel on Pond Parrish Road. 2900 feet of Spring Road was rebuilt. The end of Sunset Avenue was rebuilt and hot topped. 2600 feet of Boston Post Road south was shimmed and 1" finish course of hot top was applied. Approximately 9800 gallons of MC800 were used for surface treatment and charged to this account.

Road Improvement - 2600 feet of Boston Post Road south was shimmed and 1" finish course of hot top was applied. The Road Improvement Program was done in conjunction with our Gas Subsidy Program.

Parks and Playgrounds - Under this category we maintain the Town Commons, Library, Wilkins and Clark School grounds, two playgrounds, tennis court, South Fire Station and the Old Brick School. In 1983 we also mowed several baseball diamonds for the softball teams on Spring Road and a football field on the Merrimack Road.

Cemeteries - The maintenance of the four Amherst cemeteries, namely Meadowview, Cricket Corner, Chestnut Hill and the Old Cemetery behind the Town Hall is done by this department. This encompasses the raking, mowing, trimming as well as the spreading of loam and seeding of several areas of Meadowview Cemetery during 1983. In 1983 we made 25 burials in Meadowview. The fence at Cricket Corner was scraped and primed and painted. Several of the main roads in Meadowview were graveled.

Your Highway Department garage is located on Dodge Road. Our office is open Monday through Friday from 7:30 a.m. to 1:30 p.m. Our work day is from 6:30 a.m. to 3:00 p.m. During the months of June, July and August we anticipate that we will again be on a four day work week. During storms we try to have one of our personnel answering the telephone calls at 673-2317. The Road Agent's home telephone is 673-1293. Our staff consists of one road agent and eight regular employees, comprised of light equipment operators, heavy equipment operators, laborers and a secretary. We also employed three part-time laborers during the summer months.

I would like to thank the Board of Selectmen and the Road Commission for their assistance and guidance during 1983 and to the taxpayers of Amherst for their continued support. We appreciate receiving your comments and suggestions on how this department can better serve the community.

RICHARD G. CROCKER, ROAD AGENT

AMHERST FIRE DEPARTMENT

The Department responded to 152 calls of which seven were structure fires as compared to 142 last year with ten structure fires.

Amherst Fire Calls

Smoke investigation - 16	Industrial - 1
Structure - 7	Camp fire - 1
Chimney - 28	Tree fire - 6
Service calls - 9	Electrical - 2
Brush - 15	Furnace - 1
Stove - 5	False alarms - 23
Oil burner - 4	Good intent - 2
Motor vehicle - 9	Mutual aid received - 12
Wash down - 8	Mutual aid supplied - 13

The Amherst Fire Department is composed of four engine companies which man and equip two stations - Central Station in the village and South Station on Stearns Road. Listed below are the stations, their equipment, officers and the number of calls to which each engine responded.

CENTRAL STATION

Engine 1: Responded to 99 calls
Captain David Hanlon; Lt. Tom Grella
Ladder 1: Responded to 56 calls
Engine 4: Responded to 23 calls
Captain John Moorhouse; Lt. Walt Nelson
Engine 3: Responded to 97 calls
Captain Mike Riccitelli, Lt. John Raymond
Tanker 1: Responded to 22 calls

SOUTH STATION

Engine 5: Responded to 66 calls
Captain Willis Maloon; Lt. John Bachman
Tanker 2: Responded to 14 calls. A military vehicle which
has water capacity of 2,000 gallons.
Utility Van: Responded to 54 calls. A 1972 vehicle which is
equipped with a cascade system and other equipment.

To report a fire dial 673-3131. This is the number of the Milford Communications Center which handles all fire calls for Amherst, 24 hours a day. Please give property owner's name, street name, house number and the town when reporting a fire.

A combined drill with all companies is held on the first Monday of each month. Each company holds a practice drill on one of the following Mondays of that month.

The Fire Wards wish to thank members of the four engine companies for all their time and efforts in 1983. Also, our thanks to the Board of Selectmen, Margaret Drobat and the people of Amherst for their support.

MARSHALL STRICKLAND, CHIEF
RICHARD G. CROCKER, FIRST ASSISTANT CHIEF
DAVID HERLIHY, JR., SECOND ASSISTANT CHIEF

FIRE PREVENTION BUREAU

During 1983 members of the Bureau conducted 25 wood stove inspections. The wood stove inspections are done at the request of the home owner at no charge. Any resident of the Town of Amherst who would like to have their wood stove installation, chimney or home inspected may call Lt. Walt Nelson at 673-8361 or Capt. Mike Riccitelli at 673-0642.

Again this year, members of the Bureau visited the Clark and Wilkins schools to present the Captain No-Burn Program. The second graders were given T-shirts. Some of the local kindergartens were also visited by members of the Bureau.

The Bureau also conducted a fire extinguisher course at the Middle School for the babysitting clinic. The same course was also presented to the Cub Scouts. The Bureau would like to remind everyone that we would put on a fire extinguisher course for any group or organization at their request.

Members of the Bureau are: John Bachman, Bruce Bowler, Richard E. Crocker, Jeffrey Manson, John Moorhouse, Walt Nelson, John Raymond and Mike Riccitelli.

The Bureau wishes to thank all those who have worked and assisted us in our activities during 1983 and we look forward to continuing to serve you in 1984.

MIKE RICCITELLI, CHAIRMAN

BRUCE BOWLER, SECRETARY

AMHERST POLICE DEPARTMENT

1983

Police Roster

Chief John T. Osborn, Jr.

Sgt. Patrick Doherty	Officer Louis Nadreau

Officer Richard Day	Officer Russell Stamets
Officer Steven Kemp	Officer Harold Wheeler
Officer Peter Lyon	

Special Officers

John Bennett	Albert Junkins
Walter Buchholz	Doris Kelley
Peter Delpapa	Cyndee Picard
Nancy Demers	Steven Wakefield
Norman Douglas	

Resigned During 1983

Sgt. Steven Sexton	Officer John Nason
Officer Michael White	Special Officer Robert McHatton
Special Officer Amy McKinney	

Incidents Reported to Police in 1983

14 Abandoned vehicles	777 Incidents
209 Accidents	140 Juvenile detentions
329 Alarms	28 Lost/stolen plates
1 Armed robbery	11 Lost/stolen property
187 Arrests	102 Medical assists
2 Arson	128 Miscellaneous
5 Assaults	24 Missing persons
251 Assist motorists	150 Motor vehicle complaints
8 Attempted burglaries	352 Mutual aid calls
2 Attempted thefts	35 Noise complaints
20 Bad checks	31 Nuisance phone calls
35 Burglaries	360 Open doors
202 Criminal Mischief	106 Pistol Permit Applications
3 Criminal threats	5 Recovered property
31 Criminal trespass	2 Recovered stolen vehicles

38 Domestic Disturbances	95 Relays
18 Escorts	5 Sexual assaults
70 Fire calls	2 Stolen motor vehicles
4 Forgeries	142 Suspicious vehicles/persons
111 Found property	125 Thefts
	15 Stray Livestock
Total Offenses for 1983 - 4488	

For the second consecutive year, major crime has decreased in Amherst. This can be contributed to two major factors:

1. A conscientious patrol program which involves not only traffic enforcement but visability within the residential community as a deterrent.
2. Citizen participation in neighborhood watch programs assist in identifying the unusual and notifying the police department of this activity.

The statistics for major crime are as follows:

Offense	Cases	Cleared	%
Assaults	10	9	90
Burglaries	35	9	26
Bad Checks	20	17	85
Forgeries	4	3	75
Armed Robbery	1	1	100

Although the clearance of these crimes is not our desired level, they are above the national average.

Seven areas of Amherst became involved in Neighborhood Watch. Meetings with representatives of the Crime Prevention Unit and citizens create both working knowledge of problems as well as solutions to reduce crime in their community. More participation is desired in this program.

Participation in the Good Morning Amherst Program, whereby elderly residents call in to the police department on a daily basis, has remained at twelve. We would like to encourage more people to take advantage of this program.

Youth, ages 14 through 20 years, are continuing to show interest in law enforcement with our Police Explorer Post #194. This activity takes place at the Police facility every other Wednesday evening at 7:00 P.M. This program is designed to give hands-on training and experience in law enforcement, as well as developing character, and assisting the department at various functions.

The Amherst Police Department appreciates the support that the townspeople have shown in the past year and we look forward to being of service to you in the coming year.

JOHN T. OSBORN, JR., CHIEF

DOG OFFICER'S REPORT

At the end of 1983, there were 1118 dogs licensed in the Town of Amherst. Dog complaints amounted to 307, the most common problems being barking dogs and nuisance complaints.

There were 108 dogs impounded during the year. These animals were brought to Nottingham Kennels because they had no tags to identify their owner or the owners were not at home. Of these, 80 were claimed and all but two were found new homes.

A continuing problem facing motorists are those dogs which are running at large and wander onto the highways. Twenty dogs were either killed or injured on the roads during the year. Since animals do not realize the danger associated with vehicles being operated on the roadways, it is clearly the responsibility of the owner to ensure the dog's safety, to keep it under control and physically restrained when the owner is not with it. Attention to this matter also would prevent a potential tragic automobile accident.

Reports of 16 dog bites were received by the police department this year. Although most were not major injuries, the person who is bitten, commonly small children, are sometimes fearful of all dogs as a result of that experience. Dog bites should be reported so that a record may be kept for identifying a recurring incident. Injuries sustained by the dog are recoverable from the dog owner.

I am very pleased with the response received from the majority of the dog owners in the Town of Amherst when called upon to speak with them relative to complaints. Most do not realize that their dog has created a problem and are most anxious to correct the situation. I sincerely appreciate your cooperation in the past and in the new year.

NANCY DEMERS, DOG CONTROL OFFICER

HIGHWAY SAFETY COMMITTEE

Route 101A still remains the major bottleneck in the highway systems through Amherst. Perhaps the petition initiated by our representative will help expedite completion of our 2.2 mile section.

Revaluation of street lighting is in progress. It is the consensus of the committee that, by removing some lights, replacing others with new fixtures, and relocating some to hazardous intersections, Amherst will be safer and costs will be negligible.

JOHN T. OSBORN, JR., CHIEF OF POLICE
MARSHALL STRICKLAND, FIRE CHIEF
GUSTAV BISCHOFF, CHIEF OF RESCUE
RICHARD CROCKER, ROAD AGENT
ROY MASTON, CIVIL PREPAREDNESS
FRANCIS PERRY, SELECTMAN
ALEXANDER BLASTOS, SCHOOLS

SOUHEGAN REGIONAL LANDFILL DISTRICT

During 1983 wells were placed at various locations at the Landfill to monitor ground water. At the present time initial samples taken from these wells are being evaluated to determine if any adverse effects to the stream and water table is caused by this Landfill operation. Monitoring of these wells will continue on a monthly basis during the coming year.

The initial area where dumping took place has been reclaimed by adding a clay barrier, then covering the clay with loam and seeding. Our consulting engineers and the New Hampshire Solid Waste Management Bureau have recommended that additional clay must be added to this area depending upon the results of the well monitoring. Funding for this project has been included in the 1984 budget.

The second area for dumping is continually being excavated in order to allow the Landfill operation to continue. During 1984, it is intended to work back toward the main entrance. This will be the most efficient method for utilizing the Landfill.

Our engineers have done a study to determine the useful life of the Landfill. Due to the fact that the population of the District's four towns have not increased as rapidly as projected, as well as new technology and more efficient methods of operation, the Landfill could last for approximately seventeen more years.

The Commission wishes to express its gratitude to the citizens of the District for their cooperation toward the clean and efficient manner in which the Landfill is operating.

TOM GRELLA

COMMUNITY COUNCIL OF NASHUA

For the benefit of those who may not be familiar, Community Council is a private, non-profit, comprehensive community mental health center serving the residents of ten towns in southern Hillsborough County. Our programs include psychiatric, psychological and counseling services to those with mental health problems, which services are offered through ambulatory outpatient care, brief hospitalization, day care, mobile crisis response, and community support services for the chronically mentally ill in need of case management and housing assistance. Patients are seen at Community Council regardless of their ability to pay, with their fees discounted through a sliding scale based on income and number of dependents. The balance of our costs are recovered through other funding.

The Council services were given to 61 clients from Amherst, 14 children and 44 adults. This was a 43% increase over 1982. Thirty-seven of these patients were non-funded. Treatment costs were derived from a variety of sources, with our budget of \$2,258,540 supported, after \$504,904 in patient and insurance payments by \$1,200 in earmarked donations, \$28,000 computer income, \$30,000 endowment income, \$1,550,436 State grant and the balance of \$143,000 from local sources (United Way and town support).

CAROL S. FARMER, DIRECTOR

SOUHEGAN COMMUNITY NURSING ASSOCIATION

The Souhegan Community Nursing Association serves the towns of Amherst, Milford and Mont Vernon. Health care is provided by registered nurses and homemaker home health aides in the patient's home, with the approval of their physician, regardless of their ability to pay.

The registered nurses made 180 visits and the homemaker home health aides 195 visits to Amherst residents this year. The homemaker home health aides under the supervision of a registered nurse assist with personal care, light homemaking duties, grocery shopping and meal preparation. This help in many cases has enabled the patients to remain in their own homes.

Office visits may be made at the Nursing Association Building on North River Road in Milford for blood pressure checks or injections ordered by a physician. The office is open Monday through Friday from 8:00 to 4:00. The visits are scheduled between 9:00 and 10:00 A.M., or by calling the office for an appointment. This year 132 Amherst residents were seen at the office.

Immunization clinics are held on the third Tuesday of every month, except July, from 9:00 to 11:00 A.M. This clinic is free of charge to residents of Amherst, Milford and Mont Vernon. The vaccines are furnished by the State Department of Health and Welfare. Sixty-four immunizations were given to Amherst children this year. There is also a Well Child Clinic held once a month. Appointments are made for the child to be seen by a pediatrician if the family is financially eligible. Physical examinations were given to 26 Amherst children this year. Dental clinics for the children enrolled in our Well Child Clinic are held twice a year. These clinics are co-sponsored by the State Bureau of Dental Health.

Our free blood pressure clinics on Mondays from 1:30 to 3:00 P.M., are well attended. One thousand six hundred seventy blood pressures were checked this year. A diabetic screening is held at the office twice a year in August and February. Thirty-four people were screened this year.

Our loan closet is well stocked with beds, crutches, walkers, canes, commodes and wheelchairs. We also have other hospital equipment available to loan free of charge.

MARION JACKSON, R.N., DIRECTOR

NASHUA REGIONAL PLANNING COMMISSION

The past year has been one of significant success for the Commission both in representing the interests of the region and in providing direct local assistance to communities within the region.

The NRPC also provided direct assistance to the Town of Amherst on a number of projects. Perhaps most important is a proposal submitted to the Planning Board to update the Town's Master Plan over the next two years. This is required as a result of new state legislation and the changes which have occurred in Amherst since the original Master Plan was prepared.

The NRPC also assisted the Planning Board by reviewing its proposed Capital Improvements Plan and the proposed Aquifer Conservation District zoning amendment.

The Commission sponsored and administered the recent Baboosic Lake Study which was jointly funded by Amherst, Merrimack, and the State of New Hampshire to determine the relative age and "health" of the Lake. Using both local volunteers and the U.N.H. Freshwater Biology Group, the study identified threats to the Lake's water quality and strategies to maintain it.

Transportation planning for Amherst has focused largely on the Route 101A corridor. We have inventoried current land uses along the corridor to determine future traffic loads and have played a major role in the recent meetings and hearings on this issue. We have also worked to expedite the proposed widening of the 2-lane portion called "the gap" and solicited state and federal funding for a comprehensive study of the corridor and alternatives to improve it.

Regional projects have included the continuation of the Commission's Aquifer Delineation Study which is now into its third and final year. The NRPC convened a regional task force to study and develop a consensus on the region's transportation problems and potential solutions. The Commission was also instrumental in providing a forum through which area municipalities could discuss options available for complying with the State's solid waste law. The result has been the formation of a solid waste district through which future planning for solid waste management can be accomplished. Additionally, the Commission is assisting the Souhegan Regional Landfill District in undertaking a study of cooperative approaches to solve the problems associated with septage disposal within its member towns. The Commission also coordinated a cooperative bid on fuel oil in which five towns participated in the cooperative bid solicitation process.

In the legislative arena, the Commission sponsored a gathering of area legislators to brief them on pressing regional concerns which might be addressed through legislative action. The Commission then continued to provide information to legislators and local officials throughout the most recent biennial session of the legislature. Also, with the passage of the recodified planning and zoning enabling legislation, the Commission assisted local officials in adjusting to the new law by co-sponsoring a law lecture series which addressed the topic, and through periodic mailings and updates.

Local officials and area residents were also kept informed on local and regional issues, problems and solutions through the Commission's newsletter SOUNDINGS and through the Dispatch and Legislative Alert mailings throughout the year.

The Commission looks forward to continued service to its members in the year ahead, and to working with local and state officials in seeking regional solutions to common problems.

AMHERST TOWN LIBRARY TRUSTEES' REPORT

Work continued on the personnel policy and wage scales through November when the final draft was completed. Considerable effort was expended in research on library wages not only in New Hampshire but also throughout New England and other areas. The Library personnel policy is similar, but not identical to the Town personnel policy.

Additional book shelving was purchased from the Library Gift Funds and installed in the Children's Room.

November saw a major change in the Library operation when the Library opened on selected Sundays during the school year. This action was taken in response to a student patron's request. Staffing for these additional hours is now provided by the Trustees and other volunteers. Library usage during the Sunday hours has been quite good.

In June the Town Moderator was asked by the Trustees to appoint a committee to study the work already done by the Trustees relative to additional library space and to make recommendations to the Trustees regarding this matter. This committee, chaired by Robert Lown, was composed of Evelyn Dudley, John Lamb, Robert Lown, Martin Michaelis and Wendy Stotz. The committee submitted their report in December recommending that the existing library be expanded to a total of twelve thousand square feet. The committee's study of the need for additional space and the available options such as use of the Brick School and an entirely new facility was comprehensive. Copies of the committee report are available at the Library for study. Our thanks go to the Moderator and to the committee for their effort.

Considering the actions taken earlier and the recommendations of the study committee the Trustees submitted a warrant article for funding library expansion for consideration by the 1984 Town Meeting.

The Amherst Gardeners undertook a project to plant new shrubs and to install a flagstone walk across the front yard of the Library. This project resulted in considerable improvement in the appearance of the Library and is greatly appreciated.

Our thanks go to the Friends of the Library for their continued devoted support of library activities. Joyce McCray heads this organization.

Additionally, our thanks go to the organization and to the many volunteers upon whom we depend for continuing library service for the town of Amherst.

AMHERST VILLAGE DISTRICT

This has been a busy year for the Amherst Village District in that we have experienced an abnormally high number of piping repairs. The repair rate reflects an increase of approximately 800% as compared with 1973. The system is getting old and we may expect even more repairs in the future. We are most fortunate that we have such dedicated people as John Hanlon and Nancy Topliffe who attend to the day to day operations of the system. A major emergency repair project was undertaken this year. This occurred when the one and only pump failed. The cooperation of Mike Riccitelli and Jim Wetherbee during this repair was appreciated. The Amherst Village District also wants to thank Red Crocker for his continued interest and cooperation throughout the year. Other notable events during the past year have been in the location of several promising potential well sites. These could serve as back up should we have a catastrophic failure of our existing well. These sites will be further investigated during the forthcoming year. The Amherst Village District has formally accepted, at no cost to the District, the Dodge Road Extension.

ROGER O. TOPLIFFE

JOHN I. SNOW
Commissioners

PETER B. ROTCH

AMHERST VILLAGE DISTRICT WARRANT

The State of New Hampshire

The Polls will be open at 8:00 P.M.

To the inhabitants of the Town of Amherst in the County of Hillsborough in said State, qualified to vote in DISTRICT AFFAIRS:

You are hereby notified to meet at the Town Hall in said Amherst on Friday the 9th of March, 1984 at 8:00 p.m., to act upon the following subjects:

1. To choose all necessary District Officers for the ensuing year.
2. To raise such sums of money as may be necessary to defray District charges for the ensuing year and make appropriations of same.
3. To see if the District will give the Commissioners and District Treasurer the authority to borrow money in anticipation of District taxes.

4. To raise and appropriate the sum of \$8,000 for the purpose of acquiring access rights, and to perform sustained pumping and quality tests for the development of a secondary source of water.
5. To transact any other business which may legally come before the meeting.

Given under our hands and seal this 17th day of February, 1984.

Roger O. Topliffe
John I. Snow
Peter B. Rotch
Commissioners of Amherst Village District

A true copy of Warrant - Attest:

Roger O. Topliffe
John I. Snow
Peter B. Rotch
Commissioners of Amherst Village District

SPECIAL TOWN MEETING

January 5, 1983

Re: Water Installation to Town Barn on Dodge Road.

The meeting was called to order at 7:40 P.M., by acting Moderator Creeley Buchanan. Approximately 200 were in attendance.

Mr. Buchanan read the warrant in its entirety. Selectman Perry reviewed the history of the water problem on Dodge Road, followed by Attorney Drescher's presentation of the legal aspects.

Discussion from the floor was held. Ann Snow moved the question. Motion seconded.

G. Merrill asked to have Article I be taken as ballot vote. Told not the proper time to ask for this and Moderator would get back to her request.

T. Clough asked division vote to cut off debate. 112 For and 37 Against. A motion to take a standing vote on Article I passed.

Ways and Means Committee asked to be heard. Moderator Buchanan said they missed their chance and ruled they were too late. A motion to sustain the ruling of the Chair was passed. After a heated discussion, the Moderator gave exception to rule and permitted them to give their report. Catherine Cummings of Ways and Means Committee reported they felt the Article should be presented at the regular Town Meeting in March.

Article I. To see if the Town will vote to raise and appropriate a sum not to exceed \$130,000.00 in order to construct and install an eight inch (8") extension of the present Amherst Village District Water Main in order to provide service to the lot on Dodge Road which is currently owned by the Town of Amherst and is the location of the Town Highway Department equipment storage buildings and administrative offices, said property being shown on the Amherst Tax Maps as Lot 6-69 with said water main to originate at the intersection of Dodge Road and Mack Hill Road at the current location of the existing water service of the Amherst Village District and proceed along Dodge Road to the subject lot or take action relative thereto.

A standing vote was taken on Article I. 107 - Yes
57 - No

Article II. To see if the Town will vote to ratify and approve the action of the Town of Amherst Board of Selectmen in entering into an agreement with the Amherst Village District with respect to the provision of water from the terminus of existing Amherst Village District water service on Mack Hill Road and Dodge Road to Lot 69 on Tax Map #6 which property is currently owned by the Town of Amherst and constitutes the Town Barn, all as more particularly set forth in an agreement entered into and executed between the Amherst Village District Commissioners and the Town of Amherst Board of Selectmen dated December 21, 1982, or take action relative thereto.

Article II. Question moved and seconded. Article adopted on voice vote.

Meeting adjourned at 9:20 P.M.

BERNICE G. BOOTHROYD, TOWN CLERK
January 6, 1983

SYNOPSIS OF TOWN MEETING

March 8, 1983

Acting under Warrant for Town Meeting, polls opened at 7:00 A.M. and closed at 7:00 P.M. at the Wilkins School. 885 ballots were cast.

Articles 1 and 2 were by ballot vote.

On Saturday, March 12, 1983 Articles 3 thru 25 were acted upon at Middle School. The meeting was called to order by Moderator Wight at 9:10 A.M. Approximately 75 citizens were present when the meeting opened. Selectmen Perry, Manoogian, Snow, Lown and Arnold along with Attorney Drescher were in attendance.

Article 2

Amendment #1 Withdrawn by Planning Board.

Amendment #2 Movable Signs

Amending the Zoning Ordinance as proposed by the Planning Board to add to the sign ordinance the prohibition of movable signs, and a requirement that such existing signs be phased out six (6) months after adoption of this amendment.

Yes - 644

No - 192

Amendment #3 Reference to Hillsborough County Soil Conservation Service Soil Survey.

Amending the Zoning Ordinance as proposed by the Planning Board to change the reference to Hillsborough County Soil Conservation Service Soil Survey of 1981 in the description of Minimum Lot Area contained in the definition of PRD, Article IX, to read "United States Department of Agriculture Soils Survey Interpretation Sheets of 1973, 1975, or 1976".

Yes - 584

No - 201

Amendment #4 Amending Building Code

Amending Building Code as proposed by the Planning Board for the Town of Amherst to revise and number the entire text and to eliminate typographical, factual, grammatical errors throughout the present code, and to remove sections dealing with oil burners, oils, furnaces, boilers, as these are under the jurisdiction of the Fire Department; to incorporate into the Building Code clear fire resistance requirements for all attached and single family housing units, using National Fire Protection Association Standards; to require fire-resistant self-closing doors between garages and living areas; to replace present wording about chimneys and fireplaces with State adopted (National Fire Protection Association) regulations about chimneys and fireplaces; to require prior inspection of soils material underlying foundations in order to insure solid bearing and structural integrity of the foundation.

Yes - 669

No - 164

Article 3

Selectman Perry made an amendment to have Articles 8, 9, 11 and 12 taken up before Article 3. Ways and Means in favor. Moved and seconded to change order. Chair received unanimous vote.

Voted to raise and appropriate the sum of \$1,676,248.00 to defray Town charges for the period July 1, 1983 to June 30, 1984. Amendments made by Selectman Perry to reduce Office Expenses to \$85,450.00 and Communications to \$10,961.00 were accepted.

Article 4

Voted to give the Selectmen and Town Treasurer the authority to borrow money in anticipation of tax receipts.

Article 5

Voted to raise and appropriate the amount of \$35,000 to cover the town's share (10% of total) contracted for 1981, of the relocation of the bridge on Boston Post Road and authorize the withdrawal of said amount from the Bridge Capital Reserve. The posted warrant reads Corduroy Road should be Boston Post Road.

Article 6

Voted to authorize the Selectmen to enter into a contract with the State of New Hampshire under the Bridge Aid Program, for the repair of the Merrimack Road Bridge and will further raise and appropriate the sum of \$43,500 to be withdrawn from the Bridge Capital Reserve to cover the town's obligation of 15% of the estimated cost.

Article 7

Voted to raise and appropriate the sum of \$7,000.00 to rebuild and resurface the tennis courts at the Middle School and Davis Lane and to authorize the withdrawal of this amount from the Recreation Capital Reserve.

Article 8

Voted to raise and appropriate the sum of \$35,000 to replace ambulance #141. The old unit will be disposed of by sale or trade for an estimated amount of \$3,000; the sum of \$20,000 to be withdrawn from the Ambulance Capital Reserve; the sum of \$3,000 to be withdrawn from the Radio Capital Reserve; the sum of \$3,000 to be donated toward the purchase and the balance, not to exceed \$6,000, to be withdrawn from Federal Revenue Sharing Funds.

Article 9

Voted to raise and appropriate the sum of \$18,000 to fund the town's share of the first year of a five year lease of a computer to be shared with the School District and to allow sufficient funds to effectuate the change from a service bureau to in-house capability; and to authorize the withdrawal of the amount required for this purpose from Federal Revenue Sharing Funds.

Article 10

Voted to authorize withdrawals from the Federal Revenue Sharing Funds for use as offsets against budgeted appropriations in the amount indicated for the following specific purpose:

Winter Maintenance \$33,000

Article 11

Withdrawn. Selectman Manoogian moved this article be withdrawn. All voted in favor.

Article 12

Voted to raise and appropriate a sum not to exceed \$76,000 for the purpose of establishing or joining a suitable communication service for the town and authorize the Selectmen to investigate and determine the solution which, in their opinion, serves the best interest of the town of Amherst, and further, to authorize the withdrawal of \$18,000 from Federal Revenue Sharing Funds for this purpose.

Article 13

Voted to raise and appropriate a sum not to exceed \$12,000 to establish a dental program for the town employees.

Article 14

Voted to authorize the Board of Selectmen to enter into a contract on terms deemed in the best interest of the town for the reappraisal of all properties in town and to raise and appropriate the sum of \$120,000 for this purpose.

Article 15

Voted to raise and appropriate the sum of \$2,500 to pay the town's share of the cost to monitor Baboosic Lake to determine if a problem with water quality exists and to receive from the study, to be conducted by Nashua Regional Planning Commission, recommended action for the restoration of the lake, should this prove necessary.

Article 16

Voted to ratify the boundary agreement between the Board of Selectmen, the Conservation Commission and John and Lorraine Quinlan as to a right of way and easement and authorize the Selectmen to execute the necessary papers. Posted warrant reads Recreation Commission, should be Conservation Commission.

Article 17

Voted to raise and appropriate the sum of \$150.00 to support the services rendered by St. Joseph Community Services, Inc., to the elder citizens of Amherst.

Article 18

Voted to raise and appropriate the sum of \$5,000 to support the services rendered by the Souhegan Nursing Association to Amherst residents.

Article 19

Voted to raise and appropriate the sum of \$1,500 to support the services rendered by the Souhegan Valley Association for the Handicapped to Amherst residents.

Article 20

Voted to raise and appropriate the sum of \$1,725 to support the services rendered by the Nashua Regional Mental Health to Amherst residents.

Article 21

By Petition. Voted to authorize the Selectmen to sell and convey to the Lincolnwood property owners, one parcel of land identified as Lot 8-83, known as the original common land in the Lincolnwood subdivision approved by the Planning Board, acquired by Tax Collector's deed, for the amount of unpaid taxes, interest and administrative fees.

Article 22

By petition. Withdrawn by unanimous vote.

Article 23

By petition. Voted to reduce the size of the road right-of-way on Limbo Lane from 100 feet to 50 feet and authorize the Selectmen to take any action to effectuate the foregoing.

Article 24

By petition. Voted to go on record in support of immediate actions by the Federal Government to control and reduce acid rain which is harmful to the environment and economy of Amherst, New Hampshire, and to the health welfare of the people of Amherst, New Hampshire. These actions shall include:

1. Reduce by at least half the major cause of acid rain, sulfur dioxide emissions, by the year 1990.
2. Conclude negotiations and adopt a treaty with the government of Canada that will commit both nations to the same goal.

The record of the vote on this article shall be transmitted to the New Hampshire Congressional delegation and to the President of the United States.

Article 25

By petition. Voted not to ask members of the New Hampshire Congressional delegation to support or co-sponsor a resolution in the United States Congress to:

Request the President of the United States to propose to the Soviet Union that the United States and the Soviet Union adopt a mutual freeze on testing, production and deployment of nuclear weapons and of missiles and new aircraft designed primarily to deliver nuclear weapons, with verification safeguards satisfactory to both countries.

Meeting adjourned at 2:30 P.M.

Zoning Administrator

TOWN OF AMHERST AUDIT

November 30, 1983

To the Board of Selectmen
Town of Amherst, NH

The Town of Amherst engaged us to conduct an examination of the financial statements of the Town, as of June 30, 1983 and for the year then ended. In connection with the examination, we have completed a study of the Town's internal controls. Accounting controls bear directly upon the reliability of financial records and require evaluation by the auditor. By definition, accounting controls comprise the plan of organization and all the methods and procedures that are concerned mainly with and relate directly to the safeguarding of assets and the reliability of financial records. They generally include such controls as the system of authorization and approval, separation of duties concerned with operations or asset custody, physical control over assets, and internal auditing. The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition and as to the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that the costs of a system of internal control should not exceed the benefits derived, and also recognizes that the valuation of these factors necessarily requires estimates and judgements by the Town.

We did not perform a comprehensive study for the purpose of submitting detailed recommendations; however, as a result of our study, we did notice certain areas where internal controls and procedures could be strengthened or improved. These observations are set forth in the following pages.

Although the purpose of this letter is to indicate constructive criticisms and recommendations for improvement, we also noted many positive aspects of the Town's financial management and procedures which are not set forth in this report. A review of this type places greater emphasis on findings of a critical nature. Therefore, to put our comments in proper perspective, it should be noted that the weaknesses observed are not necessarily the result of poor management, but may be due to factors outside the control of the Town's personnel, such as organizational restrictions and budgetary limitations. Accordingly,

this letter should not be considered all inclusive of the areas where improvements might be achieved.

Computer Implementation

During the course of our engagement the Town was involved in implementing a new computer and the financial records were being transferred to the new system. After performing a very limited review of the new system, we noticed several internal control problems associated with the new software. Our observations were discussed with a representative from the company installing the computer who assured us that all such problems could be easily reconciled.

We recommend that the Selectmen and the computer committee remain in close contact with the Town personnel during the conversion period. By working together, intended results from automation should be obtained. We further recommend that a special study of the internal controls associated with the new system be done soon after the implementation is completed. The study would assure Town officials that adequate protection of the Town's assets and financial records are being maintained.

Establish an Off-Site Storage Facility for Back-up Programs, Data Files, and Documentation

No provision for an off-site storage area for the new computer programs, data files, and documentation has been established. If physical damage were to occur to the Town Hall, all computer programs, data files and system documentation might be destroyed. Records pertaining to payroll, general ledger, resident tax census, and annual property tax information could be lost.

We also recommend that the current version of source programs, their associated documentation and system documentation be stored in a secure location separate from the main building. A system of rotating backup tapes to this off-site storage area should also be established.

Chart of Accounts

The Town's chart of accounts appears to be excessive, especially with regards to expenditures.

Rather than maintaining so many accounts, a few summary accounts would be adequate and in a summarized form, more meaningful. The process of coding invoices would be greatly simplified if the various departments were responsible for fewer and more common known accounts.

Verification of Vendor Invoices

In our testing we detected some invoices approved for payment by the Town which had no verifiable indication of being tested for mathematical accuracy by Town personnel. In addition, not all invoices were signed by department heads, indicating approval for payment.

We recommend that all invoices be verified for mathematical accuracy by a responsible department head. This verification should be indicated on the invoice using tic marks, initials or other symbols. In addition, the Selectmen should strictly enforce the requirement that all invoices be signed by department heads. These procedures place greater assurance that the correct amount will be paid and that the department head is satisfied with the goods or services received.

Bills Payable Form

We have observed that departments do not fill out bills payable listing forms. Instead, vendor invoices are simply forwarded to the Selectmen's Office for processing. A bills payable listing form lists all invoices to be paid and serves the following purposes:

- Summarizes all vendor invoices which have been formally approved for payment by a respective department head.
- Categorizes invoices by account.
- Serves as a permanent record of disbursements for each department.
- Provides an overall control for the Town in the preparation of a manifest.

We believe the use of a bills payable listing form by the various Town departments would serve a useful control function and should therefore be used by each department in processing invoices for payment. We further suggest that after the manifest has been prepared, personnel in the Selectmen's Office should reconcile the totals indicated on the bills payable listing reports processed with the check totals drawn per the manifest. This system would increase the efficiency associated with vendor invoice processing without sacrificing any of the controls which are presently in effect.

Authorization of Manifests

Our testing disclosed that occasionally checks are issued before authorization of the manifest by the Selectmen, especially for the "manual check" manifest. In addition, some manifests reflect no authorization at all. This most commonly occurs when there are more than one manifest to be approved. Although all manifests are probably reviewed by the Selectmen, only one is signed. We recommend that each manifest be appropriately authorized before any checks are issued. This will insure that all manifests are reviewed and approved by Town Selectmen before the checks are issued.

Implementation of an Encumbrance System

The Town does not use the encumbrance method of accounting. By encumbering, a reduction in appropriation balances is recorded immediately when funds are committed (upon issuance of an approved purchase order).

We recommend that the Town consider implementing an encumbrance system. The new computer system can easily accomodate this improvement. The main advantage of the encumbrance system is that expenditures for goods and/or services are controlled at the earliest point, that is, when the order is placed, thus reducing the possibility of budget overruns. Interim reports would be more meaningful as budgets would be compared to actual expenses plus total orders outstanding. This method would also provide documentary evidence of the Town's outstanding purchase orders and liabilities at year end.

Tax Receivable Records

Excessive time was required at the close of the fiscal year for reconciling the detailed outstanding property and resident taxes to the related general ledger control accounts. This was due to the lack of adequate updated cash receipt and warrant reports from the computer service bureau. These reports were not made available to the Town on a timely basis.

We recommend that the Town obtain these reports from the Service Bureau on a monthly basis until such time that the tax records are maintained on the Town's own computer. By reviewing these reports monthly, errors can be detected and adjusted immediately.

Standardizing Tax Abatements

During our review of the controls over the granting of tax abatements, we noted the absence of documentation supporting the validity and approval by a responsible official of resident and property tax abatements.

The current procedures require that a taxpayer request an abatement in writing by a letter to the Selectmen. The Selectmen then either approve or disapprove the abatement and the taxpayer is informed of the decision. Periodically, a list of all approved abatements is prepared and signed by the Selectmen as a permanent record.

We recommend that a standard abatement form be established which documents pertinent facts about each abatement. Taxpayers would complete a special section of the abatement request form, explaining the reason for the request. The form would then be approved or disapproved by the Selectmen, reasons noted, then signed. One copy of the form would be returned to the taxpayers for their records, the other filed in a binder for Town records. The approved abatement forms should then be recorded in a journal which contains categories for type of tax and year of levy. The journal will allow the Selectmen to review the status of all approved abatements in one summary as well as serve as an audit trail for verifying abatement transactions in the Town's financial records.

Cash Receipt Vouchers

A cash receipt voucher summarizes a day's cash receipts. It is usually prepared by the Tax Collector, Town Clerk, or personnel in the Selectmen's Office. In order for the Treasurer and personnel in the Selectmen's Office to update their respective records, it is necessary that each obtain a copy of the voucher. This means that the vouchers must be duplicated from up to four times by the originator.

We recommend that the cash receipt vouchers be prepared on pre-printed NCR forms so that two copies will automatically be prepared when the original is written. These copies can be distributed to the Treasurer and Selectmen's Office. This should reduce the effort required to prepare the vouchers and also help ensure that all parties are updating their records with the same information.

Cash Receipt Source Documents

Cash receipt source documents consist of cash receipt journal vouchers which are filed loosely in manila folders in the Selectmen's office by month.

We recommend that all cash receipt vouchers be filed chronologically by date in a more permanent binder. This would become a source document for the cash receipts journal and would be maintained as a permanent record in the Selectmen's Office. All entries in the cash receipts journal could be easily traced to this binder. The implementation of a cash receipts source binder would reduce the risk of losing any of the cash receipt vouchers, and, in addition, would simplify the routine task of referring to the vouchers.

General Journal Source Documents

A general journal is a book of original entry and provides an audit trail for all transactions not captured by other special purpose journals. The source documents for the general journal are journal vouchers. Currently, these journal vouchers are filed with cash receipt vouchers in monthly manila folders in the Selectmen's Office.

We recommend that these journal vouchers be filed chronologically in a separate binder. Also, is important that an appropriate explanation be included after each adjustment to provide an understandable audit trail.

The implementation of a formal binder for general journal source documents would reduce the effort involved when referring to the adjusting journal entries and would increase the efficiency of the audit trail if appropriate explanation were included with each adjustment.

Implementation of Insurance Register

Although insurance policies are being filed in one central location, we believe an insurance register containing summary as well as detailed information would prove beneficial to the Selectmen in evaluating and reviewing coverage and costs.

We recommend that an insurance register be established and filed in a separate location from the actual insurance policies.

Fixed Asset Accounting

Municipalities in New Hampshire have historically not maintained formal records of their fixed assets and have not reflected their cost in the Town's financial statements. As a result, substantial assets which belong to the Town are not reported and the Town lacks an effective tool for making management decisions regarding the investment in these assets.

A comprehensive listing of the Town's fixed assets by type and location would provide a basis for long-range capital planning, establish management control over the use and custody of the assets, and assist in assessing the full cost of a given operation. This listing would also be helpful in evaluating insurance needs and establishing the basis for insurance claims. To the extent that individual departments maintain asset records, the effort involved in developing a Town-wide inventory would be lessened.

The Town has already done a majority of the work involved in obtaining detailed lists of fixed assets. However, the lists that were prepared by the various department heads were not consistent in the format of reporting because some Departments reported more detail than others.

We recommend that a standard form for listing fixed assets be established and given to each department head to complete. The completed forms should then be posted to the Town's computer.

While the implementation of this recommendation would entail a substantial effort, effective planning and the cooperation of the department heads will mitigate the first-time-through effort. The continuing maintenance of this data on the computer (e.g., future additions, retirements, etc.) is a relatively straightforward task.

* * * * *

This letter summarizes the major areas of internal control weaknesses and potential systems improvement that came to our attention in the review of internal control performed in connection with the audit of the financial statements for the year ended June 30, 1983.

After you have had an opportunity to consider our findings and recommendations, we shall be pleased to discuss them further with you. We would like to thank you and your staff, and especially Mrs. Landry, for the cooperation and courtesy given to our firm during the course of the engagement.

Very truly yours,

Melanson Professional Association

OFFICE HOURS of TOWN OFFICERS

Selectmen

Town Hall, Monday Evenings, 7:30 p.m.

Selectmen's Secretary
